

I.C.F. Yearbook ARTWORK INSTRUCTIONS

Pictures today are digital. Send them to us as they came off your phone or camera.
PLEASE do not compress or reduce your digital pictures to make them easier to email!

When you resize or compress your photos you lose definition and the results don't print well.

High resolution with very little compression.

Low resolution with high compression

We will crop and size as needed.
(Do tell us what's important in the photo.)

Full photo from camera (reduced size)

FACES
We want to
be able to
recognize your
beautiful faces!

Cropped & sized photo

I.C.F. Yearbook ARTWORK INSTRUCTIONS

**ARTWORK
DEADLINE
July 1st
2022**

You are FABULOUS! We're here to help you look it.

Sending your files for the I.C.F. Yearbook:

Most files: Email to info@icf.org. (Be sure to include your branch information.)

Large files: We are using Dropbox.com this year for large files. Share through Dropbox to kimmer@vision-graphix.com. Please also send an email to make sure we received your files. You can also email for assistance. We are here to help.

Art problems or questions? *Regardless of your question or problem... contact our designer, Kimmer Sue - kimmer@vision-graphix.com, to work directly with you.*

PHOTOGRAPHS

- DIGITAL FILES ONLY PLEASE!
- Send original photo files from your phone or camera, without compression, reduction or cropping!
- Resolution must be 300 dpi (dots per inch) or higher for printing. That's 5 times bigger than what you see on the internet, which is 72 dpi.
- AVOID SENDING printed photographs for us to scan, no matter how good they look. Scanning these prints is always disappointing. Please send all photos in the size and format they came off the camera. We will size and crop to fit. Yes, we can handle both jpg and camera RAW files.

MEMORY NAMES & SPONSOR NAMES

- Name lists MUST be provided digitally.
- We have made the Sponsor and Memory list forms interactive. Please download and use the digital forms or type your list into the body of an email.
- PLEASE type names in upper and lower case as that's how they will print. Our conversion software can only capitalize the first letter of every word. For some names this is a problem.

ENTRIES

- PROVIDED HARD COPY - Your copy will be scanned and used as-is. This is the worst way to provide copy as there is always a loss of quality.
- PROVIDED FILES that are NOT PDF - We do our best with the files you send, but sometimes things move or are missing. We do support files from Microsoft Office but are working on a Mac computer. If you send files from software we don't support we will let you know.
- PROVIDED PDF FILES - Please be sure that all fonts are embedded or embedded subset. Some fonts will not embed, so for those you must outline them or switch to something that will embed. Fonts not embedded will be substituted by the software.
- COMPOSITION SERVICE - Provide us with photos and your text and we will create an attractive page for you. Feel free to include a rough sketch of your vision and we will do our best to follow it.
- FILE CLEANUP - We look at every file sent and correct what we can. Sometimes we are forced to ask for new files. When provided with the original photo files we gladly re-create your layout for better quality.
- OUR GOAL is to make you look FABULOUS!

We're Here To Help!
